

KOHLTECH

Solutions For Every Industry & Every Build

360° 4-Channel System

WHY USE TOTAL VIEW?

Due to their size and length, trucks have larger blind spots than the average car, which means operators may not be able to see vehicles and pedestrians in these blind spots. KOHLTECH offers a solution to this problem with the Total View 360 camera system. Remove the blind spot, remove the risk and increase operational safety

Total View

The TotalView™ 360 wrap-around image of vehicle surroundings fully eliminates blind spots, provides evidence at all angles, and allows for easy navigation of tight spaces.

360° Seamless video • 3D and 2D Switchable Views • Video Recording • FCW

Panoramic Views

Full HD 360 View

SD Recording
