Solutions For Every Industry & Every Build

## 360° 8-Channel MDVR

### WHY USE TOTAL VIEW?

Due to their size and length, trucks have larger blind spots than the average car, which means operators may not be able to see vehicles and pedestrians in these blind spots. KOHLTECH offers a solution to this problem with the Total View 360 camera system. Remove the blind spot, remove the risk and increase operational safety

#### Total View

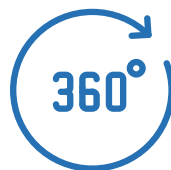

Reduce your cost and increase safety with KOHLTECH'S Intelligent MDVR All-in-one 360 degree cameras. This system uses H.264/H.265 compression technology and supports real-time remote monitoring so you never miss a thing. Our fully integrated system can also offer blind spot detection or advanced driver assistance/driver safety monitoring without the need of additional equipment.

360° Seamless video • 3D and 2D Switchable Views • Video Recording • FCW
