

KOHLTECH

Solution based technology for every build

Radar Message System

COMMAND ATTENTION

- White flashing LED strobes designed to command the drivers attention
- Advanced In-Radar traffic statistics option on any vehicle or build
- 10.5" digit height for optimal legibility at all hours in all conditions
- Change violator speed without a computer.
- Automatic speed compensation for rolling operations
- Multiple mounting options for maximum flexibility

PROVEN EFFECTIVENESS

State and national research states that the most effective tool for decreasing driving speeds in a work-zone is a notification that alerts drivers to their speeds.

WORK-ZONE INDEPENDENCE

The radar board works as a stand alone system in any work-zone providing statistics and protecting your crews 24-7.

WORK-ZONE FLEXIBILITY

The radar system can operate as a stand alone system, with integrated tracking software to keep records of traffic speeds throughout the day and provide notification to traffic speeds in a work zone.

INTELLIGENT INTEGRATION

Gather more than just speed data, our radar message system will seamlessly integrate with our MDVR systems to provide time, speed, video and GPS data to ensure you are gathering all the needed statistics from our work-zone day in and day out.
